GENERAL INFORMATION

Customers when ordering from this catalogue—give number of SPECIAL CATALOGUE as well as the number of designs and NEVER CUT OUT THE DESIGNS.

All lights or windows are made specially to order to size given.

In placing orders always give the maximum time as to when work will be required, otherwise we will assume that we will have 30 days to fill the order.

For odd shapes or odd sizes send in full size paper patterns.

If windows are grouped draw a rough design showing how they go. This is always of assistance to the artist in detailing the windows.

In ordering always mention width first for upright lights thus 18 x 60

or transom thus  60 x 18

Odd or fractional parts of inches charged as even inches of next larger size; for example: a 16¼ x 17¼ will be charged as an 18 x 18.

When selecting a design carefully compare the size and shape of glass wanted with the size and shape of designs selected. Have them as nearly alike as possible.

When a window is ordered to fill a smaller space or of a different shape than indicated in design, we reserve the right to modify the design—or increase the price.

All designs are scaled approximately ¾ inch to the square foot.

Boxing will be charged on all orders at 8 cents per superficial foot of actual lid measurement of cases shipped—irrespective of value—minimum charge for a box will be 25 cents.

All prices given under the designs are for the work made up in lead.

For zinc, electro copper plated, add 25% to the lead prices. For solid copper or other finishes write for prices.

Prices quoted are F. O. B. our city.

Designs on pages 1 to 4 prices are based on clear window glass.

Designs on pages 5 to 8 prices are based on clear window glass leaded in heavy wide leading. Designs on pages 5 to 8 in regular leading deduct 25%.

For color or translucent glass add 10 cents per square foot to net prices.

Designs on pages 9 to 16 are based on clear glass for border and background, with Crystal translucent glasses for the decorative effect.

Same designs can be made in all clear glass, or can be made with color for the ornamentations with clear or translucent for background. For other methods of coloring see Special Note "AA".

Designs on pages 17 to 32 are based on clear beveled plate in lead.

Same may be made in chipped or obscured plate at an additional net cost of 15 cents per square foot.

Designs on pages 33 to 64 inclusive are to be colored glass leaded based on combination of Opalescent, Antique and Cathedral glasses, the artist using such glass and colors as in his judgment will be best adapted to carry out the design.

Designs that show color and clear in catalogue can be made all color. See Special Note "AA". Otherwise clear glass will be used as shown in designs.

Special Note "AA". All designs not shown in color can be made in harmony with any design shown in colors. As for illustration, design 61-N can be made in colors to harmonize with color design 273-N. Design 65-N can be colored to harmonize with design 227-N and so on.
